

I understand the FCC may possibly take K-Love off the air and replace it with a new LPFM station. This news saddens me. First of all, K-Love is a family friendly station that shares the most wonderful message of all, God's love. Our family listens to and supports K-Love because of this. The positive message fuels us and so many others in the local community. K-Love is a positive force on the radio when so many other stations are speaking to 'what's happening now' in our society including playing songs with distasteful lyrics, sharing crude jokes and bombarding us with incessant commercials. I don't want my choice to be taken away. Thank you.
